## FULL-STACK/BACKEND DEVELOPER

Experienced in building applications using Ruby on Rails, JavaScript, React, Redux, Postgresql databases, and RESTful APIs. Determined, detail-oriented, proficient at debugging and not prone to making small mistakes. Enjoy creating and building things and am a hands-on problem solver.

### TECHNICAL SKILLS

Frontend: HTML, CSS, Git, JavaScript(ES6), React, Redux, Bootstrap, React Bootstrap

Backend: Ruby, Rails

Database: PostgreSQL, SQL

Other: Heroku(deployment), OAuth(third-party user authentication)

### TECHNICAL PROJECTS

#### MyFamilyRecipes

*A social media platform where users can post their own recipes and share them with friends. All recipes will populate in a feed where users can like and comment on each recipe.*

- Developed a database with 3 users, 50 recipes and 100 ingredients using PostgreSQL and Faker gem.
- Utilized Redux and Thunk middleware to retrieve data from database and render it for use with React components.
- Built the UI using React.js and Redux to manage the state of application.

#### Cafe Menu App

*A cafe-menu app that allows users to view items based on different menu types and add new items to the menu.*

- Modeled a database with 50 custom menu items with different prices, images, and descriptions using PostgreSQL.
- Implemented vanilla JavaScript and fetched data from custom API asynchronously.
- Generated the menu items fetched from a custom database with JavaScript and styled it using CSS flexbox..

#### Rails Cafe Online Ordering

*Online menu for a cafe. Shows menu items and allows customers to create online orders. Users with admin roles can add new menu items to the application.*

- Generated a database with 50 custom items that coordinated with a menu and category using PostgreSQL..
- Built views pages using Rails and styled using basic CSS.
- Authenticated users at login using a Ruby gem called Devise and encryptions using sessions.

## EXPERIENCE

#### Career Karma

Career Coach

Remote

November 2019 - August 2020

- Meet with an average of 20 app users a day for 30-minute video sessions each to provide guidance to those who are looking to make a career change to the tech industry and give action items for next steps in their individual situations.

#### Starbucks

Barista / Shift Supervisor

Knoxville, Tennessee

September 2013 - November 2019

- Created an average of 50 hand-crafted beverages per hour during peak business hours between 7am-10am.
- Managed six cash registers during business hours to ensure each register evens up to \$200 at the end of each night.

#### Comcast

Customer Account Executive, Technical Support

Knoxville, Tennessee

September 2012 - September 2013

- Received an average of 50 phone calls from customers who required assistance with their billing information, information about services, trouble-shooting inquiries, and scheduling in-home service appointments.

## EDUCATION

#### Flatiron School

Full Stack Web Development, Ruby on Rails and JavaScript program

Online

September 2019 - July 2020

#### University of North Carolina at Greensboro

Bachelor of Science (BS) in Kinesiology, concentration in Sports Medicine

Greensboro, NC

August 2008 - May 2012
